

Micro Fiber Tech

- Micro Fiber Tech (MFT) is a new innovation and technology, which combine with the unique weaving and a special adhesive formula that perfectly bonds with tires. Therefore, its quality is retained over the entire lifetime of the product.
- During the driving, MFT efficiently reduces and limits the rate of distortion and deformation of the tire, which is giving you a much more stable and a pleasant driving experience.
- MFT not only enhances the durability of the tire but also provides ultimate performance on traction and grip. Come get it! You will know its performance is far beyond your imagination.

THE DNA OF PERFORMANCE

// New innovation and technology. Resistant to over ballooning. // More rigid overall structure

// Less distortion and material friction // Stable and even contact with road surface, leading to longer tire life

RUSTLER

1/10 SCALE STADIUM TRUCK TIRES

BEAD-LOCK DESIGN With
HEX 12mm

MFT

Others

Micro Fiber Tech (MFT)

- New innovation and technology. Resistant to over ballooning.
- More rigid overall structure
- Less distortion and material friction
- Stable and even contact with road surface, leading to longer tire life

ON ROAD TIRES
HEX 17mm

Micro Fiber Tech (MFT)

- New innovation and technology. Resistant to over ballooning.
- More rigid overall structure
- Less distortion and material friction
- Stable and even contact with road surface, leading to longer tire life

Never look back
